

‘I belong to a learning community called the UFA; I am able to take part in a range of learning opportunities and training. I know where I see the UFA logo it means that people will believe in me and help me to develop my potential as a learner and as a leader. I can learn in different places; at home, in and out of school and in my community. I can be part of a trained learning team where I can teach and learn from other people who bring a wide range of experience. The UFA helps me to have a greater understanding of how I learn and how I can be more creative, confident, resilient, curious and enterprising, so that I can face and reflect upon new challenges in my life. The UFA recognises and celebrates my learning.’
